

Maxwell Alvord

Junior Full Stack Developer

Statement

Ambitious junior developer curious to break and dissect projects. I feel inspired when I am able to collaborate with others as well as hear customer feedback to be able to improve my work.

Projects

- [Joke Book Chrome Extension](#) -

Javascript, HTML, CSS

- This is the outcome of my Team Week project that used APIs to allow the user to receive jokes as well as quotes with the click of a button, this extension is currently available at the Chrome store.

- [TODODDEX Website](#) - C#, .NET, HTML, CSS, Azure

- This is a team project recreating the Pokedex using a custom API hosted on a live Azure server. This Project heavily relies on .NET, Entity, and many to many functionality.

Education

2022 • Epicodus

Certificate in web and mobile development

- *in progress* - Completed 27 week full time program.

- Built 65+ projects with C#, REACT, JavaScript, HTML, CSS as well as the skills listed below.

- Explicit dedication to pair programming and working collaboratively in group projects.

Experience

2020 - Costco Wholesale

Front End Assistant

- Experience in the service industry for all types of customers and the fast pace environment so prevalent in large corporations.
 - This job exemplified my ability to work on my own with little direction.
 - Organizing items in a variety of sizes, cleaning skills, attention to detail, and perseverance through treacherous weather, are all trusted skills learned while working here.
-
